WHY DO YOU NEED US

EU Initiative

To address the European Union initiative for General Data Protection Regulation (GDPR) that comes into force starting from May 25th, 2018, we are glad to offer our help in making your company fully GDPR compliant.

General Data Protection Regulation is initially aimed at improving and empowering data protection of all EU individuals. So if your business process requires to store EU citizens' private data, GDPR compliance is a must for you.

GDPR

WHAT DO YOU GET

What do you get from being GDPR compliant

Customers data

Customers' assurance that their data is handled properly and collected legally for defined purposes only.
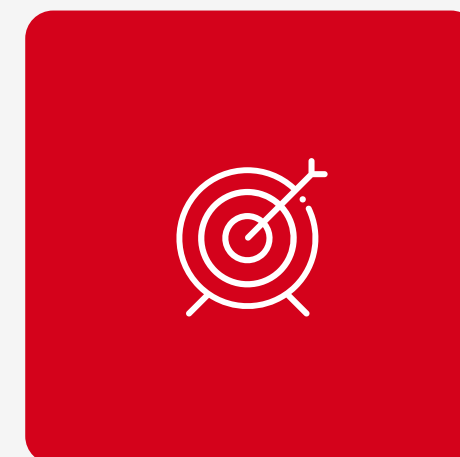

Personal data

Guarantee to your clients and partners that their data is stored according to the latest international data protection standards
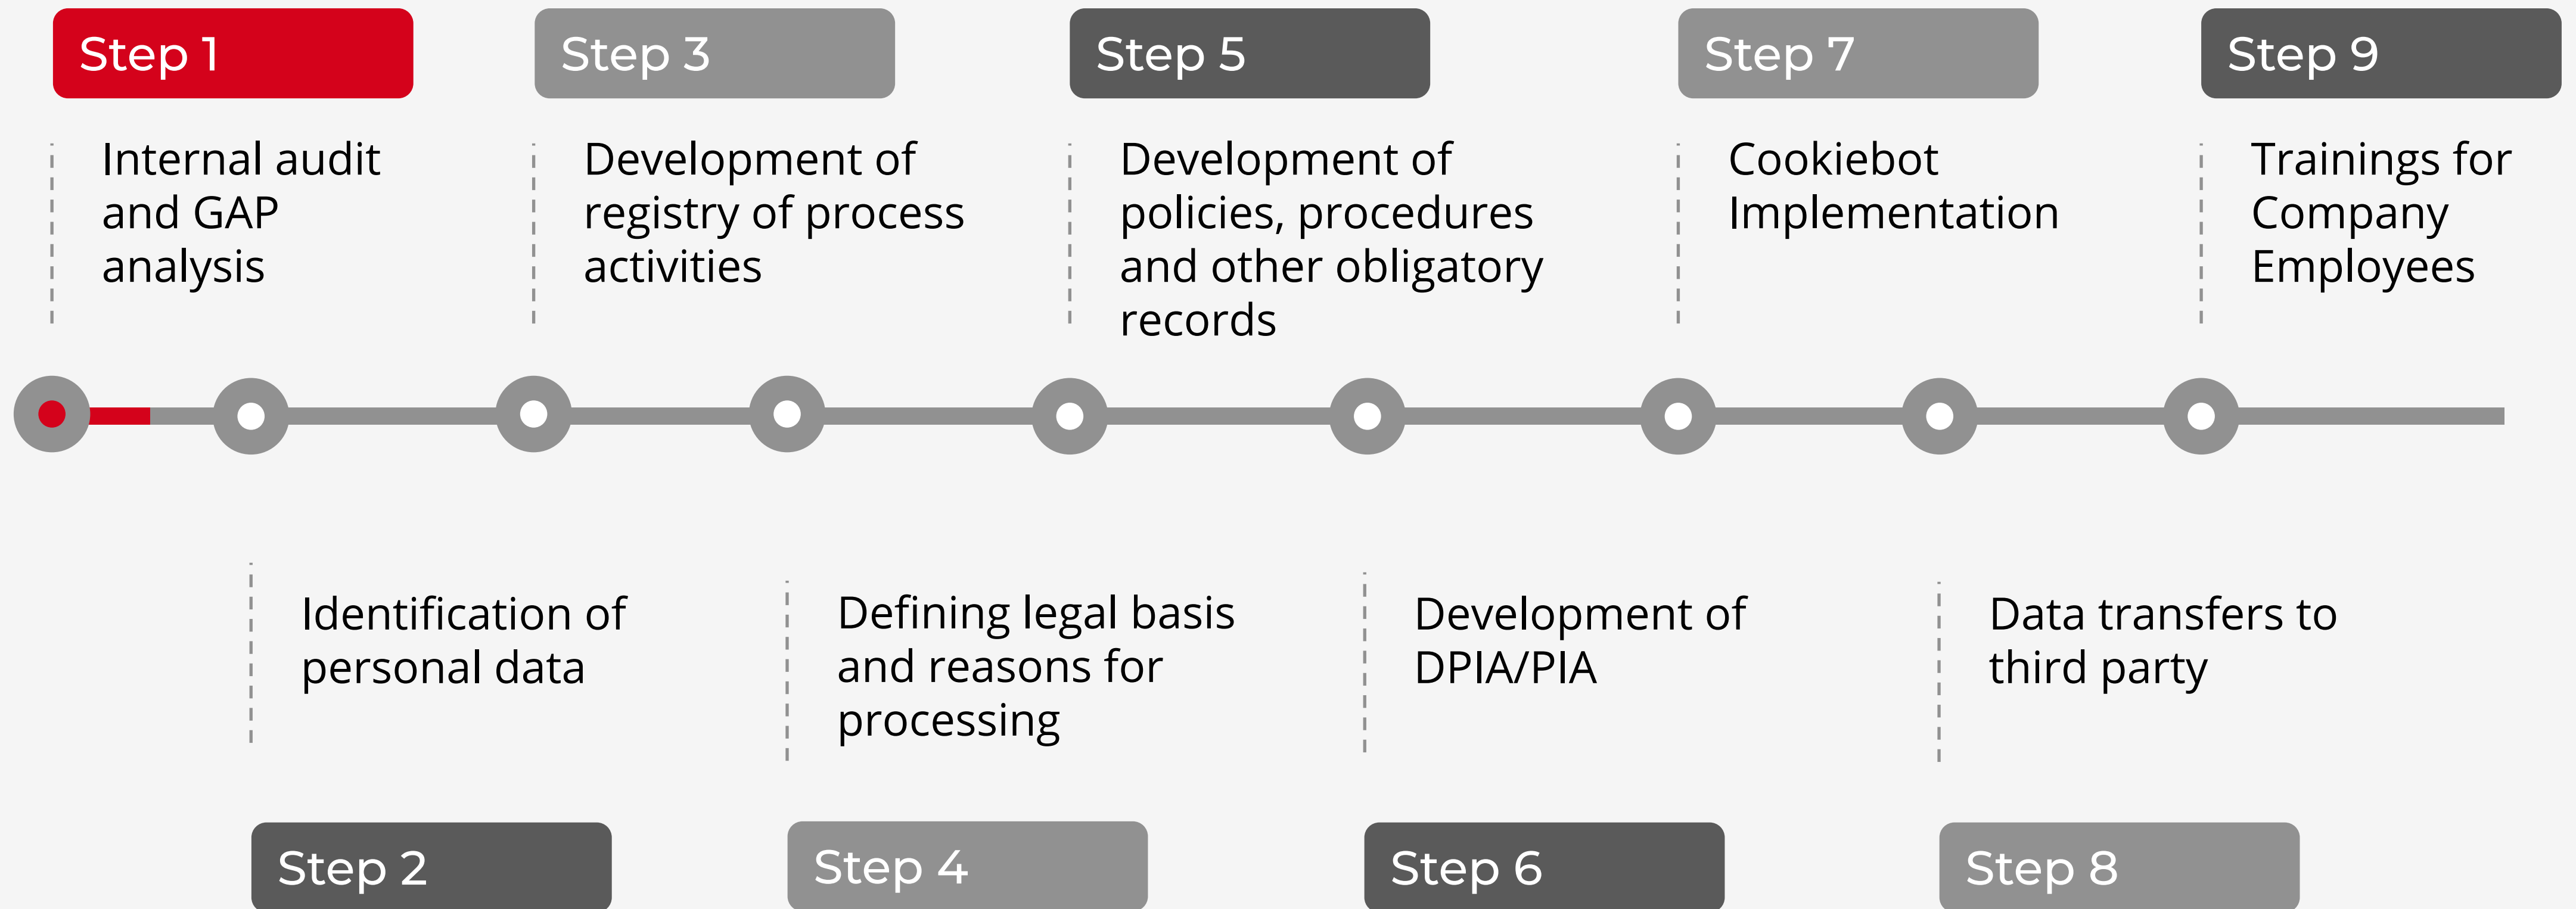

Documentation

Guarantee that your security policies, procedures and processes satisfy the main model of information security - to assure confidentiality, integrity and availability

Cyber threats

Guarantee that your updated security policies, procedures and processes will help to resist cyber threats and reduce risks of data loss

HiTech Service

PLAN

Step 1
Internal audit and GAP analysis

Step 2
Identification of personal data

Step 3
Development of registry of process activities

Step 4
Defining legal basis and reasons for processing

Step 5
